Cuba has been a subject of mystery, fascination and deliberation for decades and has been forbidden to American travelers – until just the past few years. We are pleased to offer you an exceptional opportunity to visit Cuba yourself on a remarkable 6-day exploration. You will discover Cuba through the resource that has kept the country vibrant through decades of political strife and isolation from the world: The Cuban People. Encounter Cuba through intriguing excursions, informative discussions, and exchanges with everyday people, professors and professionals. Venture into Cuba's countryside, across impossibly verdant landscapes to plantations and a socialist community. This visit will show you Cuba's unexpected delights, diversity and sustainability through agriculture, tourism, and their communities.
